

BALLARAT-MARYBOROUGH HERITAGE TRAIL

CYCLE TOUR

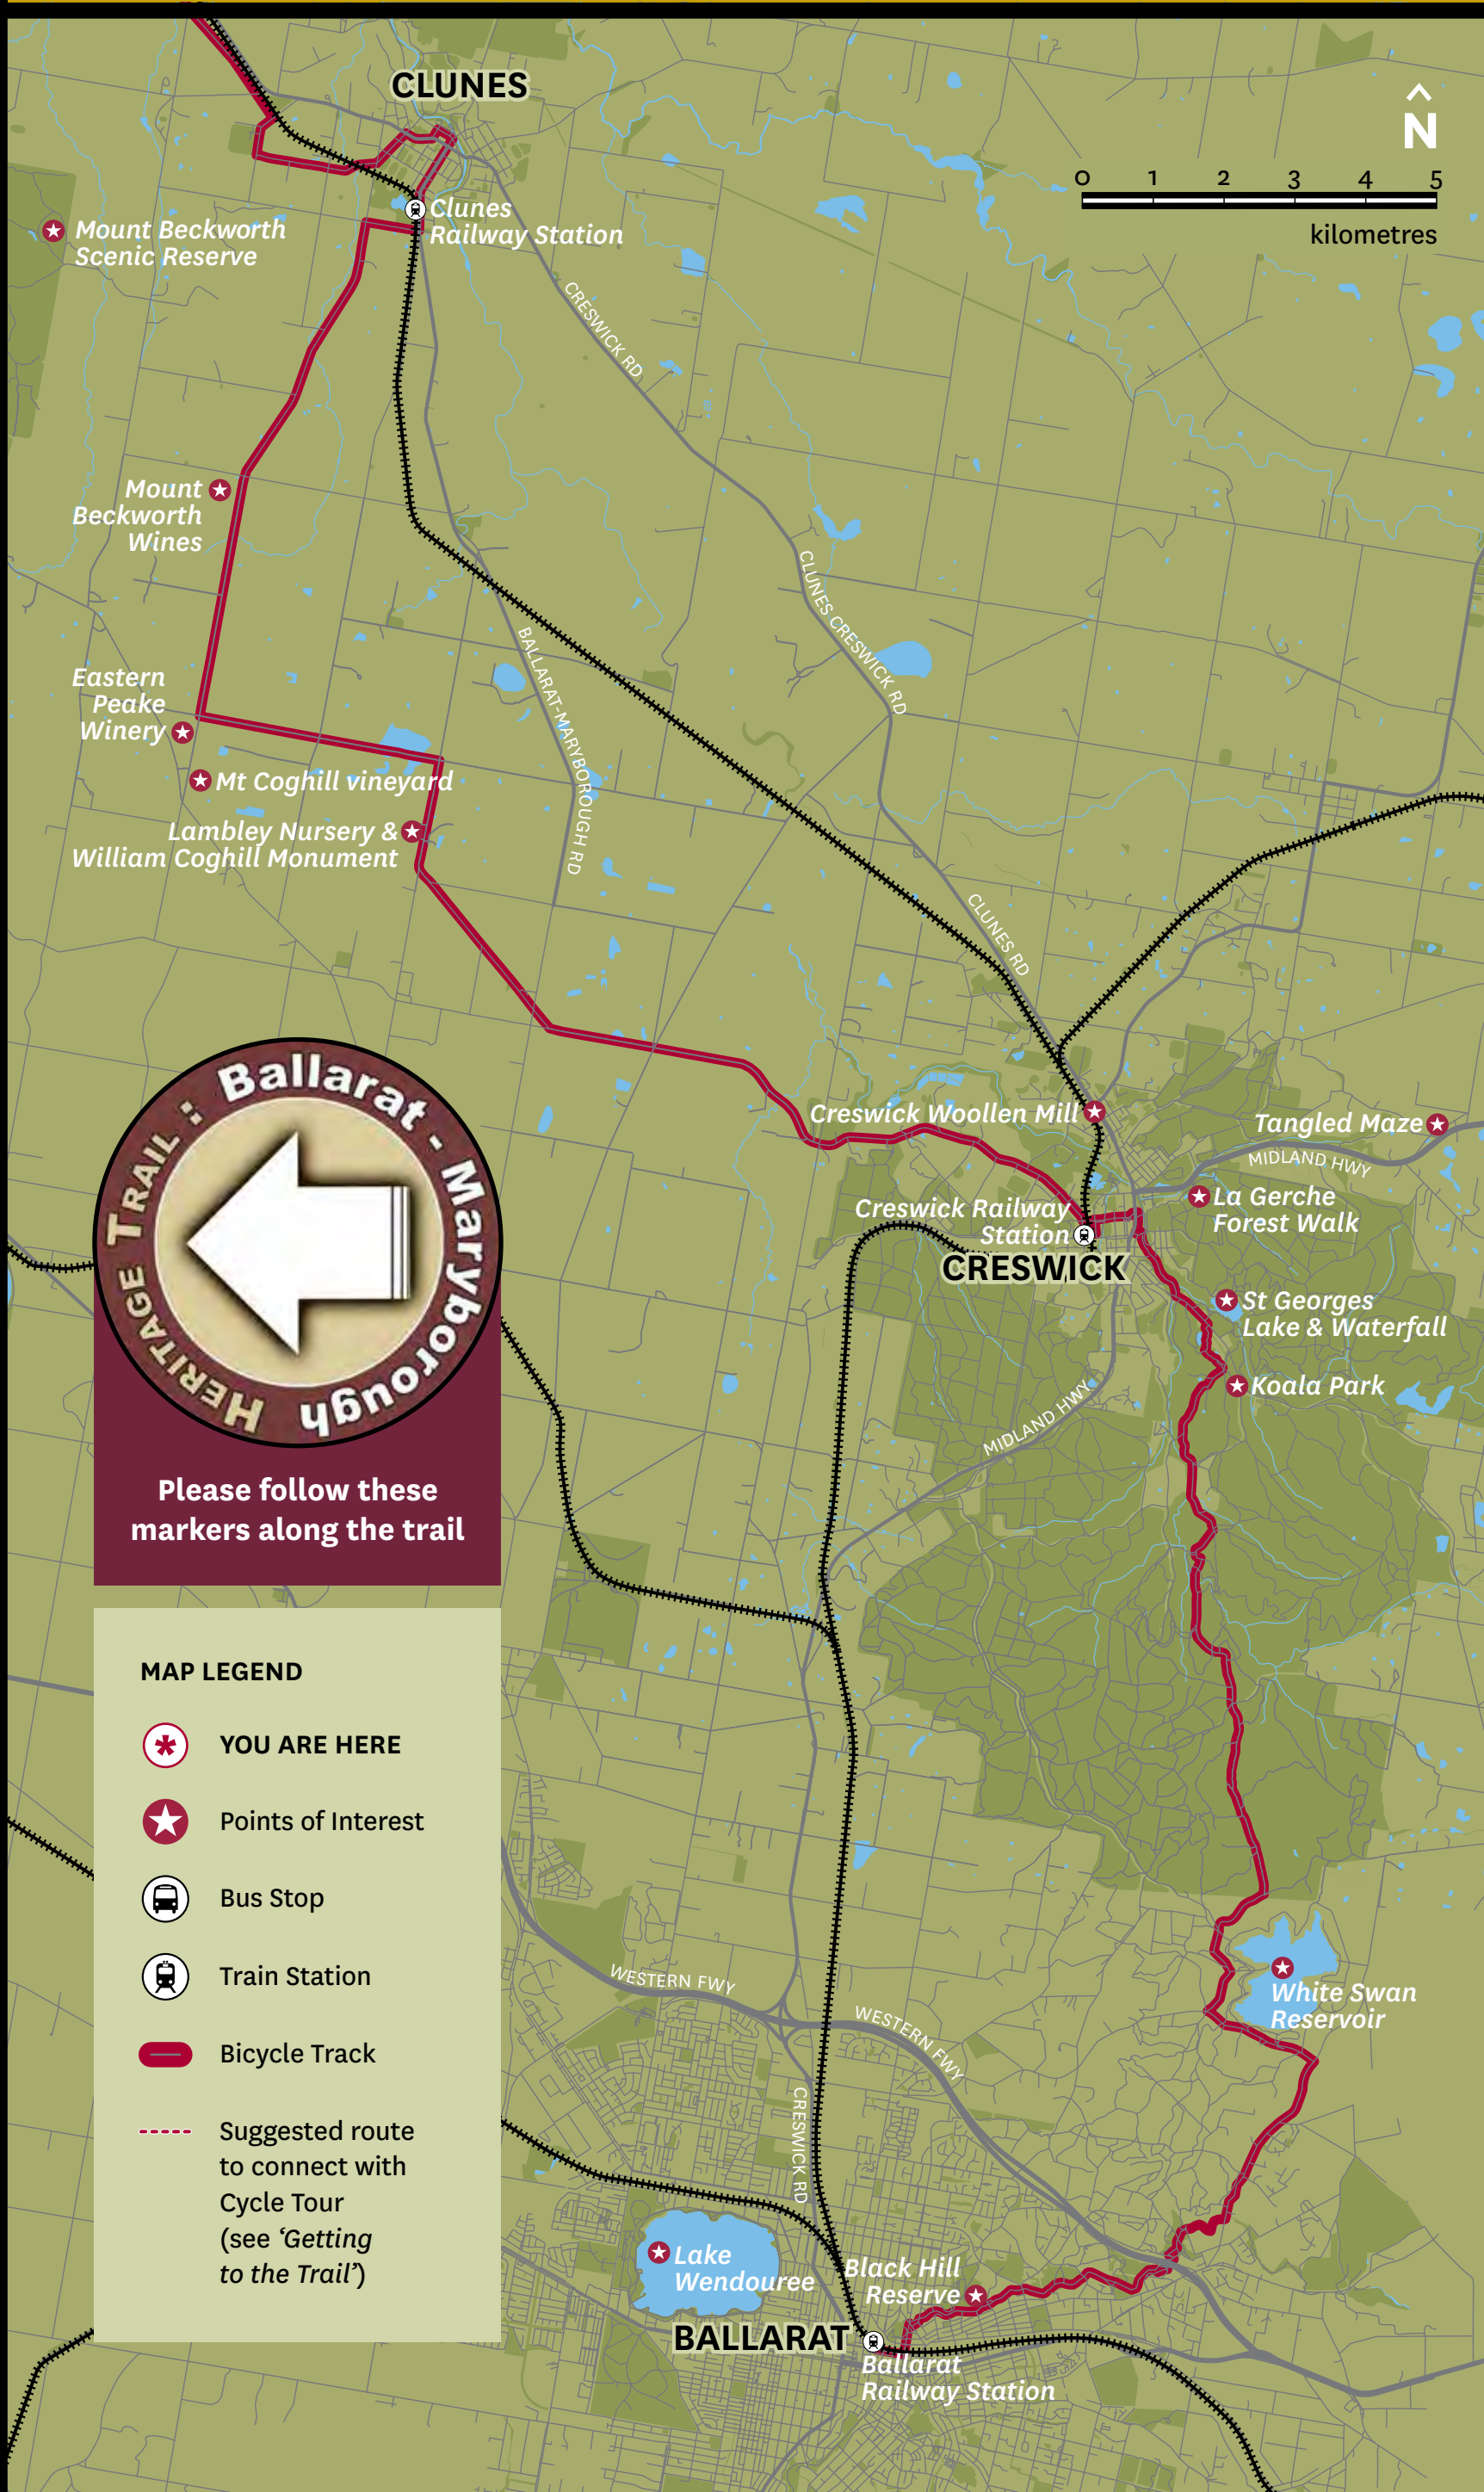

Cutting through the heart of historic gold mining country, this iconic ride connects picturesque townships, quiet forests and gentle undulating pastoral land. There are sweeping views across to extinct volcanos and sections traverse historic tracks cut for the Cobb & Co coaches over 150 years ago.

North to Clunes, 24kms

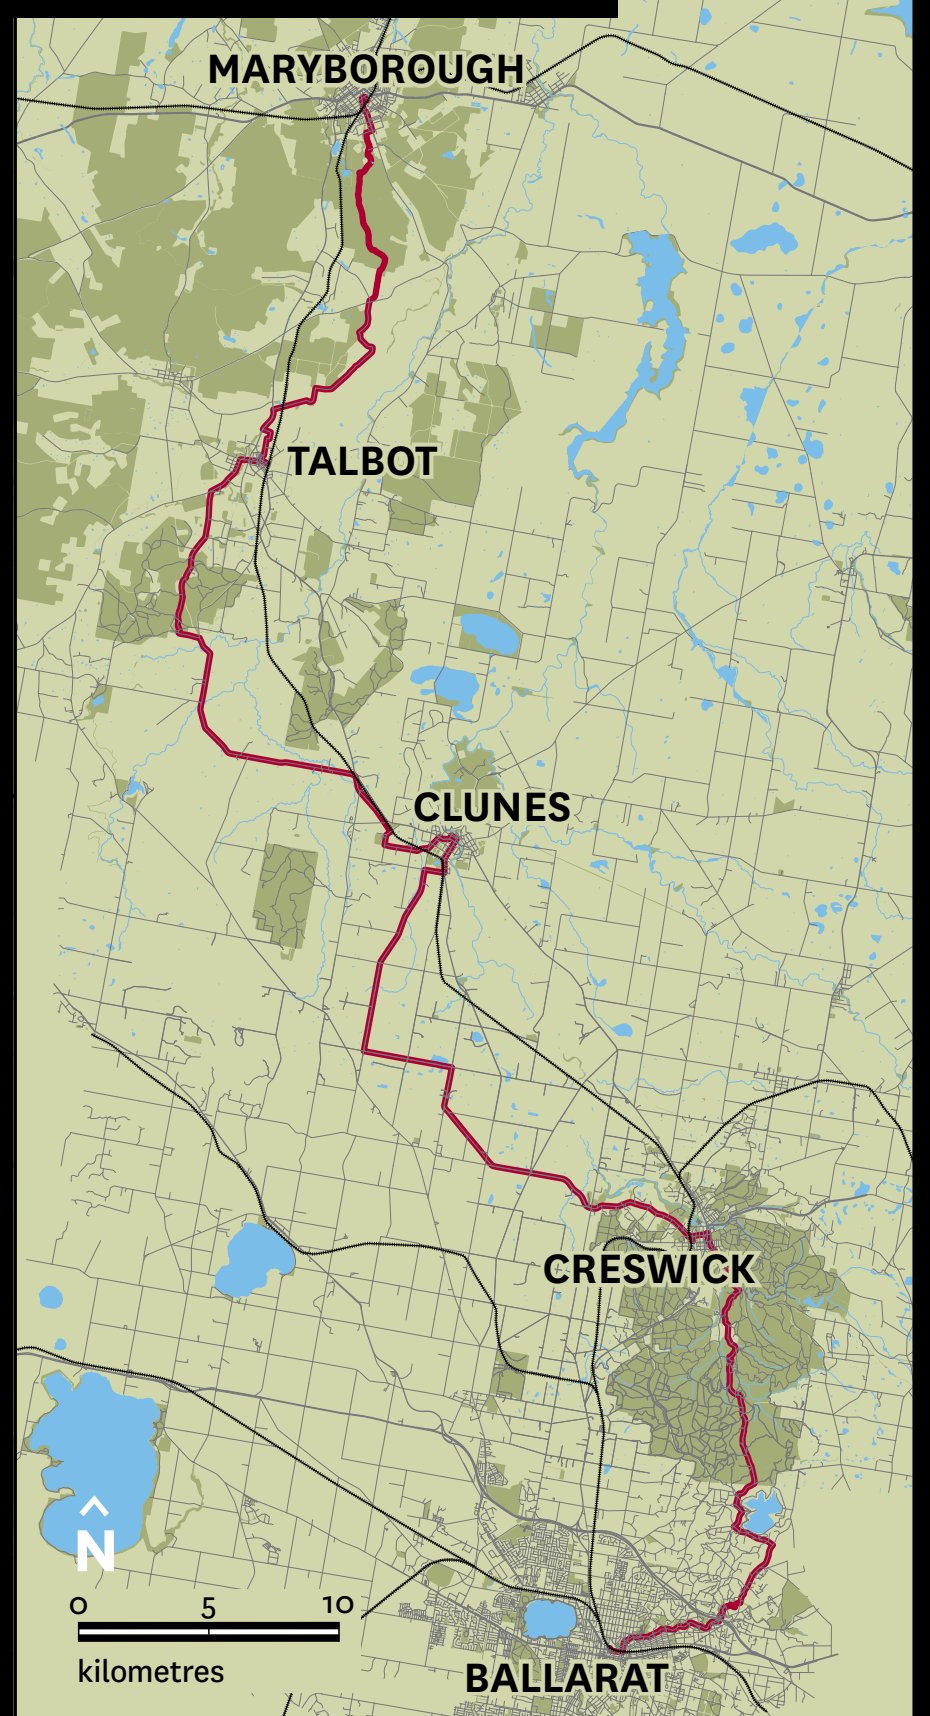

The trail traverses vineyards, historic pastoral holdings and grand country homesteads that recall a former era. Sections follow the old Cobb & Co route – the horse-drawn coach version of today's mail and bus service, and, during the gold rush era, a popular target for bush-rangers!

South to Ballarat, 24kms

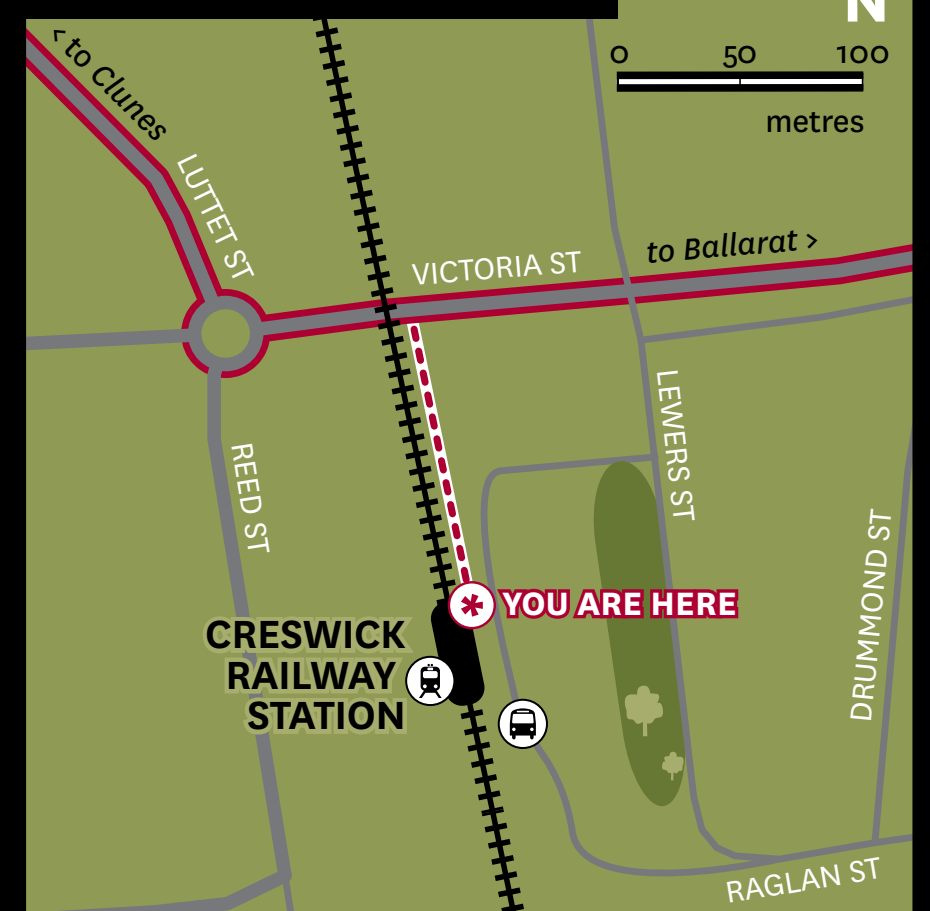

Grab a hearty breakfast for a full day of forest adventure. Watch as the eucalypts change from tall and straight to gnarled and twisted where the track dips in and out of gullies. There are picnic spots to rest at and the occasional wallaby for company. You're among the trees until you hit the outskirts of Ballarat.

Trail Overview

Getting to the trail

Before you travel, check the latest weather conditions for fire and flood warnings. Regular fire warning updates can be accessed through the CFA website at warnings.cfa.vic.gov.au.
Do not ride on Code Red Fire Warning days.
